1 Introduction

Table 1: Team Assessment.

	Self-assessment	Kelle Clark	Elizabeth Chilcoat
attended meetings	5	5	5
communicated	5	5	5
participated	5	5	5
contributed	5	5	5
provided feedback	5	5	5
positive attitude	5	5	5

My team once again worked well together on this project. We each developed our own versions of most of the functions, but we were in constant contact with each other throughout the process, and we all tested each other's code to determine which version of each function was the best. Again, the team members were supportive and gave quick, helpful feedback.
